Claude / Codex	Obsidian	Hermes	Harness Eng

Experience

Jul 2026 – Present

LingoWP

Software Developer

Launched a WordPress multilingual platform that translates content directly from its original sources through a structured extraction pipeline. Delivered to four agency clients before launching commercially.

Jul 2025 – Present

Phoenix AI USA Inc. - Hypeo, MENA

Software Developer

Developed product features for Hypeo, a MENA creator-marketing SaaS platform connecting influencers and media creators with businesses launching online content campaigns.

- Delivered a contextual AI chat that transforms open-ended client conversations into configured marketing campaigns, integrated with the internal influencer database.
- Built and refined the front-end experience in close collaboration with a senior technical lead, continuously adapting workflows to backend integration and evolving business requirements.
- Automated the manipulation and extraction of influencer data from web-scraping outputs and database pipelines used across the platform.

Experience

- Took ownership of maintenance, deployment support, access/IP handover, and bug-fix coordination during a technical leadership transition.
- Documented core business modules, missing implementation areas, and architectural solutions to support future development planning.
- Developed an external data-metrics solution for creator audience and professional collaboration insights, later accepted and integrated into the company workflow.

Nov 2024 – Jun 2025

Cogy Tech, Morocco

Software Developer

Co-developed and rolled out a standardized software delivery process, aligning team workflows and contributing to lower shipping costs.

- Established a reusable prototyping approach to validate business requirements across multiple use cases before development.
- Tracked sprint KPIs in Odoo and surfaced bottlenecks to improve planning accuracy and throughput.
- Brought 02Book to production, an AI-powered writing assistant for B2B writers, used by clients such as Orange and Le Matin.
- Strengthened software design skills under continuous mentorship, working on client requirements and delivery constraints.

Nov 2024 – Jan 2025

Rich Media, Morocco

Software Developer

Designed and integrated product features for Inflauditor, a business decision-making dashboard that helps brands analyze large-scale creator data for campaign planning.

- Designed UI flows and prototypes for Inflauditor to validate product direction and accelerate development decisions.
- Integrated data insights such as creator scoring, language detection, and sentiment indicators to support campaign planning.

Jun 2024 – Oct 2024

Digital Consulting

Software Developer

Delivered high-conversion lead-capture landing pages for Miratti (Morocco), French Dandy (Dubai), and Horde Studio (USA), supporting growth campaigns showcased at regional events (e.g., Forbes Middle East).

Apr 2023 – Jul 2024

Cyber Cohesion, Singapore

Software Developer

Led web development of a CTF platform for security competitions, used in global events such as OWASP AppSec Days, BSides Singapore, and ISACA.

Experience

- Implemented a Go API service to orchestrate isolated application deployments, providing a secure training environment for participants.
- Developed the web experience of Warzone, a dashboard to track team progress, scoring and overall competition gamification.

Jun 2022 – Jul 2023

Jonas Agency, London

Full Stack Developer

Delivered client onboarding web experiences for solar energy products, serving as the first digital touchpoint between customers and suppliers.

- Automated the delivery process for new websites by reusing proven experience patterns, helping shorten release cycles.
- Produced lead-capture websites that delivered strong conversion performance for client campaigns.

Apr 2023 – Jul 2024

Sodiadd, France

Software Developer

Developed a responsive subscription website for individual real estate investment plans.

Jun 2022 – Jul 2023

Happy Water NFT, France

Software Developer

Built a rich Web3 NFT experience focused on digital asset presentation and user engagement.

Aug 2021 – Jun 2022

Lavish Trading, London

Software Developer

Developed a subscription website for a London-based trading investment company.

Sep 2020 – Jun 2021

MySchool, Morocco

Software Developer

Built an online course platform for school education during the COVID period.
