Summary

Software developer building product experiences that simplify complex processes. Combining engineering, visual design, business understanding, and AI-assisted engineering to turn inefficient workflows into practical tools that help teams get more done. Looking to join a software team building products at scale.

Skills

JavaScript	Java	Python	PHP
React / Next.js	Angular	Node.js / NestJS	Spring Boot
FastAPI	WordPress	Odoo	PostgreSQL
Data scraping	CI/CD	Docker	Testing Practices
Figma	Framer	Interactive design	Prototyping
Claude Code & Codex	MCP Integrations	LLM API Integration	AI Agent Workflows

Experience

Sep 2026 – Present

Technical Consultant, France

Software Developer

- Tarifpublic.fr, provide technical consulting for a French state-supported marketplace for public procurement, supporting standardized product pricing.
- Develop enterprise software with AI agent workflows that automate business decisions for international agencies.

Jul 2025 – Sep 2026

Phoenix AI USA Inc. - Hypeo, MENA

Software Developer

Developed product features for Hypeo, a MENA creator-marketing SaaS platform connecting influencers and media creators with businesses launching online content campaigns.

- Integrated a generative AI agent experience that transforms open-ended client conversations into configured marketing campaigns, connected to the internal influencer database.
- Built and refined the front-end experience in close collaboration with a senior technical lead, continuously adapting workflows to backend integration and evolving business requirements from stakeholders.
- Automated the manipulation and extraction of influencer data from web-scraping outputs and database pipelines used across the platform.

Experience

- Took ownership of production systems maintenance, deployment support on cloud services, access/IP handover, incident response and bug-fix coordination during a technical leadership transition.
- Documented core business modules, missing implementation areas, and architectural solutions to support future development planning.
- Developed an external data-metrics solution for creator audience and professional collaboration insights, later accepted and integrated into the company workflow.

Feb 2025 – Jun 2025

Cogy Tech, Morocco

Software Developer

Co-developed engineering standards for code quality and shipping, delivering standardized software to enterprise customers at lower cost.

- Established a reusable prototyping approach to validate business requirements and set technical priorities before development.
- Tracked agile sprint KPIs in Odoo and surfaced bottlenecks to improve planning accuracy and throughput.
- Brought 02Book to production, an AI-powered writing assistant for B2B writers, used by clients such as Orange and Le Matin.
- Strengthened software design skills under continuous mentorship, working on client requirements and delivery constraints.

Nov 2024 – Jan 2025

Rich Media, Morocco

Software Developer

Designed and integrated product features for Inflauditor, a business decision-making dashboard that helps brands analyze large-scale creator data for campaign planning.

- Designed UI flows and prototypes for Inflauditor to validate product direction and accelerate development decisions.
- Integrated data insights such as creator scoring, language detection, and sentiment indicators to support campaign planning.

Aug 2024 – Oct 2024

Digital Consulting

Software Developer

Delivered high-conversion lead-capture landing pages for Miratti (Morocco), French Dandy (Dubai), and Horde Studio (USA), supporting growth campaigns showcased at regional events (e.g., Forbes Middle East).

Aug 2023 – Jul 2024

Cyber Cohesion, Singapore

Software Developer

Led web development of a CTF platform for security competitions, used in global events such as OWASP AppSec Days, BSides Singapore, and ISACA. Shared in managing teams and supported the hiring of new engineers.

Experience

- Implemented a Go API service to orchestrate isolated application deployments, providing a secure training environment for participants.
- Provided coaching and mentoring to developers on the platform's web experience.

May 2023 – Jul 2023 — **Sodiadd**, France
Software Developer

Developed a responsive subscription website for individual real estate investment plans.

Oct 2022 – Apr 2023 — **Jonas Agency**, London
Full Stack Developer

- Automated the delivery process for new websites by reusing proven experience patterns, helping shorten release cycles.
- Produced lead-capture websites that delivered strong conversion performance for client campaigns.

Jul 2022 – Sep 2022 — **Happy Water NFT**, France
Software Developer

Aug 2021 – Jun 2022 — **Lavish Trading**, London
Software Developer

Jan 2021 – Jun 2021 — **MySchool**, Morocco
Software Developer

2016 – 2020 — **Freelance**, Morocco
Web Designer

Projects

21 working days — **OrbitRows CLI** · masayagh.com/work/orbitrows
Python · CLI · AI Agent · SQLite · SQL · JEV · GLiNER2

43 working days — **LingoWP** · masayagh.com/work/lingowp
WordPress · React · Python · FastAPI · PostgreSQL · FreeBSD

Education

2023 - 2025 — **Master's in Big Data & Cloud Computing**
University of Hassan 2, Casablanca

2020 - 2023 — **Bachelor's in Computer Science**
University of Hassan 2, Casablanca

Oracle

Software Development Manager

Dear Hiring Team,

I am applying for the Software Development Manager role at Oracle. My work has focused on building software that helps people carry out complex tasks, from campaign setup to security competitions.

At Hypeo, I integrated an AI agent experience that turns client conversations into configured marketing campaigns using an internal influencer database. Working closely with a senior technical lead, I refined the front-end experience as the backend integration and business requirements evolved.

At Cyber Cohesion, I led web development for a security competition platform used at events including OWASP AppSec Days and BSides Singapore. I also developed its Warzone dashboard, which tracks team progress and scores.

I would welcome the opportunity to discuss how my experience could support the work at Oracle. Thank you for your consideration.

Best regards,

Mohamed Amine Sayagh
